

Dear Guest

It is my pleasure to have you in my restaurant to enjoy our aphrodisiac food from Puglia.

The concept comes from the passion of the food matched to our homeland Puglia, where there are already historically many aphrodisiac ingredients, here comes the name "Gola" in Italian is the equivalent of gluttony (one of 7 deadly sins)

aka the over-indulgence of food and drink.

And did not have to invent anything new without detaching ourselves from our culinary tradition, we only amplified placed together some ingredients in our traditional recipes for most of the menu, only in some dishes we approached aphrodisiac ingredients that do not belong to our traditional cuisine. Please enjoy your experience at Gola.
